

DHARSHIKA.J

I've been a part of this school since kindergarten and I'm proud of my journey here. I scored 592/600 in the HSC Board Exam, a result that reflects both hardwork and the support I've received. Becoming a CA is my career goal—it's a dream that's very close to my heart.

I am grateful to my institution, my teachers and my mentors, whose consistent guidance has steered me in the right direction. I also thank my parents for their unwavering emotional support.

At VSRM, there is an atmosphere of freedom that encourages curiosity and inquiry. Our teachers always motivated us to ask questions and seek deeper understanding. The focus was always on conceptual clarity rather than rote learning. One of the most helpful strategies they taught me was to maintain an error log, which allowed me to identify and improve upon my weak areas.

Though we had a rigorous schedule of tests and examinations, it taught us time management and helped us give equal attention to all subjects. Regular assessments and meticulously planned mock exams closely simulated the actual board experience, preparing us thoroughly.

My passion for the subjects helped me dive deep and aim for perfection—leading to centum in three core subjects. Our teachers went above and beyond—they stayed after school, came early, and even gave up their weekends to guide us. They didn't just prepare us for exams, they prepared us for life. And I know I'm not alone—countless fellow alumni would echo the same sentiments. My school is my foundation for my career!

CHITHAMBAREESH S.V.

My journey at VSRM has been a pleasant and memorable one. Every moment, every

lesson, and every hurdle has left an incredible mark, making it a remarkable chapter of my life.

Talking about academics, I made my school proud by excelling in the Class X Board Examination. And now, in Class XII Board Exams, I have once again proven myself by becoming the topper of Science stream.

I aspire to pursue engineering with a focus on Artificial Intelligence, bringing credit to my Alma mater. The ATAL lab at school has been my favourite place. It has sparked my curiosity and also served as stress buster. I am grateful to my teachers for fuelling my passion.

I focused on core subjects—Physics and Mathematics have always fascinated me. I was quick at solving problems but initially lacked accuracy. My teachers helped me overcome this, and the varied and multiple practice papers provided at school improved my time management and speed.

To my juniors, I offer this advice: Remember the adage “Practice makes one Perfect”.

RAGHAVISHREE.R

I joined VSRM in the Higher Secondary Course and right from the beginning I was drawn to the welcoming ambience and positive learning environment the school provided. As a commerce student, I've always been passionate about connecting what I learn with real-life situations. This perspective made learning exciting and meaningful, helping me perform well academically. I approached each subject not as a burden, but as a challenge to conquer—and that mindset made all the difference.

One of the most valuable lessons I learned here was to shake off fear. I sincerely thank my teachers for encouraging me to be bold and face exams with confidence. Their support helped me remain consistent, curious and self-assured throughout my journey. VSRM also gave me a platform to grow beyond academics. I had the opportunity to develop my leadership skills, and the school recognized and nurtured my talent for comparing. I'm truly grateful to the institution for helping me discover and refine my soft skills. I owe a great deal to VSRM for shaping me into the person I am today.
