

B. ANUSHA

I joined this institution for my Higher Secondary course, and it has been a truly enriching journey. I scored 577/600 in the HSC Board Examination, securing the first mark in the school, which stands as a reflection of my dedication and the constant support I received.

I am sincerely grateful to my school, my teachers, and my mentors for their continuous guidance and encouragement. Their efforts have played a vital role in shaping my academic success. I also extend my heartfelt thanks to my parents for their unwavering support and motivation.

The school environment always encouraged learning with understanding rather than memorization. Regular tests, well-planned assessments, and model examinations helped me stay focused and prepared for the board exams. The emphasis on conceptual clarity made a significant difference in my performance.

Choosing the Commerce group has strengthened my interest in the field, and I am determined to pursue my goals with the same passion and commitment.

My school has laid a strong foundation for my future, and I will always be proud to be a part of it.

N. DHANYA

My journey at VSRM has been a transformative and cherished experience. Joining the school in the VIII standard, I have grown not just academically, but as an individual, with every lesson shaping my future path.

Reflecting on my academic achievements, I am proud to have excelled in the Class XII Board Examinations, securing an impressive 566/600 in the Biology stream. This success is a testament to the strong academic foundation I received here since middle school.

I now look forward to pursuing higher studies in the field of Biology, aiming to contribute meaningfully to the community bringing pride to my Alma mater. I am deeply grateful to my teachers for their unwavering guidance and support throughout these years.

I focused on my core subjects, and Biology has always been my area of deep interest. While I enjoyed learning complex concepts, my teachers helped me refine my approach, and the regular practice sessions provided at school were instrumental in improving my depth of understanding and analytical skills.

To my juniors, I offer this advice: Consistency and curiosity are the keys to success. Stay focused on your goals, and never hesitate to explore the subjects you are passionate about.

K.SHARRVANI

Joining the Higher Secondary course here was a transformative experience, and I was immediately drawn to the supportive learning environment that nurtured both my academic and personal growth. As a commerce student, I found great joy in connecting my classroom lessons to real-world scenarios, which helped me secure the topper's position.

My approach was simple. I viewed each subject as a challenge to be conquered with enthusiasm. I am deeply grateful to my teachers, whose constant encouragement helped me face every exam with confidence, consistency, and a positive mindset.

Beyond the classroom, I have discovered that balance is key to success. Practicing yoga has been an integral part of my life, helping me stay calm, focused, and disciplined throughout my studies. This discipline, combined with the school's encouragement, also gave me the confidence to participate in numerous competitions. Winning several prizes across these platforms has been an incredibly rewarding experience, teaching me that hard work—both in academics and personal pursuits—truly pays off.

I am profoundly grateful to this institution for providing me with the perfect platform to discover my potential, refine my skills, and grow into the person I am today.
